

# WESTMOUNT

GOLF & COUNTRY CLUB

November 2019

FoxNet has made significant improvements to our business since we began working with them. Our business is unique, as we have six different business units that operate seven days a week, over 18 hours a day; you can imagine the varying needs related to technology that we face daily.

Choosing an IT services provider is an important decision for any organization. FoxNet took the time to understand all our current technology needs as well as considering future needs before making any recommendations, always with the best interests of our organization as its priority.

The consistent service they provide, detailed follow-up and ongoing care, makes the team at Westmount Golf & Country Club very comfortable with how our IT is managed and confident in our decision to choose FoxNet.

Brad Duench
